

**TUNED INTO  
OUR CLIENTS**

# **Aisa Services** tuned into our clients

## Tooling

- Resilient and long-lasting construction designed to perfectly match customer requirements and achieve best machine efficiency.
- Parts are manufactured thanks to state-of-the-art innovative technology, providing an increased process windows and components durability.

## Parts & Consumables

- Highest quality and durability parts manufactured with state-of-the-art technology for highest efficiency.
- Available for all generations of Aisa machines.

## Training

- Knowledge-based series to improve machine and
- Equipment preventive

SERVICES **AISA**

- ACCOMPANY OUR CLIENTS FOR THE LIFESPAN OF OUR PRODUCTS AND HELP THEM EVOLVE IN RELATION TO CHANGING MARKET NEEDS.
- PROVIDE EFFECTIVE MAINTENANCE TO ENSURE PROFITABLE AND OPTIMAL PRODUCTION.
- GUARANTEE COMPLETE AVAILABILITY AND CONTINUOUS SUPPORT TO OUR CLIENTS.

## Technical Support

- Proactive and experienced technicians, in Switzerland and abroad, demonstrating fast reaction time in case solving and parts shipment.
- Remote customer assistance to access our equipment live.

## Improvement

- Equipment assessment on site providing a clear view of upgrade possibilities and automation obsolescence threats.
- Compatibility and interchangeability maximized to keep spare parts inventory investment as low as possible.

## Training

es of training modules  
process efficiency.  
maintenance.

## Remote assistance

Aisa is leading the market, offering the latest in remote troubleshooting technology. The ALV system enables customers to establish a live video broadcast with Aisa or send video files at any time to a dedicated server, avoiding costly interventions.

## Upgrades

The versatility of Aisa machinery provides solutions to market demands. The rise of PBL requirement is a good example where Aisa can offer PBL conversion kits for existing machinery.

## Innovative tooling

Thanks to our High Cooling tooling, based on 3D laser sintering equipment and designed for best cooling efficiency, we achieved increased productivity for our PTH machine range.

## Personalised training

Aside from the standard catalogue, Aisa provide specific training sessions. This is a powerful way to ensure a smooth and efficient transition to a new Aisa process technology at the customer's site.
